

## Assigning a Cart

This lesson will demonstrate how a purchaser can submit a cart to an assignee for review and completion.

1. We'll begin by locating the shopping cart you've filled with items. To locate the cart, hover over the shopping cart icon, then hover over My Carts and Orders, and finally select **View Draft Shopping Carts**.

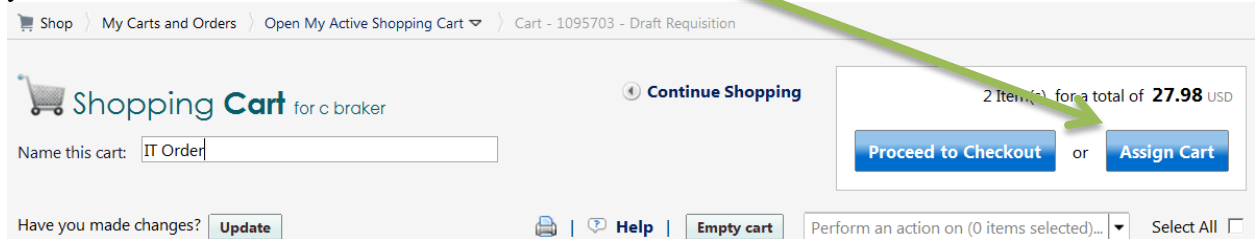

2. Click the shopping cart icon to the left of the cart you want to make active.

3. Click the cart name of the cart to view. Note that you can rename your shopping cart which defaults to the current date, username, and cart number. A more appropriate cart name might indicate what project the cart is related to or what the order is for. In this example, we will name the cart **IT Order**. Click **Update** to save. (Be sure items in cart match description!)

- After reviewing the cart contents, click the **Assign Cart** button on the right hand side of your screen.
